

**APPLY TODAY!**  
**Construction Leadership Course**  
**CON464 Spring semester**

**“Be a part of something larger than our individual selves”**

---

The Construction Leadership course is seeking motivated students that are interested in serving the community through real life construction projects that impact members of our community. Projects vary in size and scope, ranging from new construction to residential renovations that provide or improve ADA access and non-profits that serve the greater community in need of construction.

**Why should I apply?**

- Make an impact, contribute to our community members that need construction assistance
- Apply classroom knowledge to a real project ranging in scope and size
- Utilize your contract and project administration techniques throughout the lifecycle of a volunteer construction project
- Collaborate and work directly with construction industry members that are interested in serving the community and supporting CM Cares
- State of the art computer applications learned in prior CM courses for efficient contract and project administration, scheduling, and communication. Projects currently utilize **PROCORE** Software for Project Management

**When:** Every spring semester, the Construction Leadership course embarks on life-changing construction projects for families and adults living with disabilities. CM Cares began in 2011 and has completed more than 27 projects, donating/completing more than two million dollars work.

Be sure to check out our website to view videos and past projects.
