Tenure-Track Assistant Professor  
Department of Construction Management  
College of Health and Human Sciences  
Colorado State University

University Description:  Colorado State University is a land-grant, Carnegie Research Extensive Institution with a faculty of about 1,500 that guides approximately 25,000 students enrolled in professional, graduate and undergraduate programs. Colorado State University is committed to building and retaining a high quality faculty that reflects the diversity of the populations we serve.

Department Description:  The Department of Construction Management is a very collegial and supportive group that serves the largest construction management program in the country with approximately 600 undergraduate majors and 40 graduate students. The undergraduate program is accredited by the American Council for Construction Education. The faculty are committed to developing a department of excellence grounded in science and the discovery process. Applicants are encouraged to visit the department at: http://www.cm.colostate.edu

Community:  Colorado State University is located in Fort Collins, which is a community of approximately 130,000 located 65 miles north of Denver and 45 miles south of Cheyenne, WY. Located at the foot of the beautiful Rocky Mountains, Fort Collins is within an hour’s drive of many major recreational areas. Fort Collins ranked second in Top 100 Best Places to Live by CNNMoney in 2008.

Positions:  One tenure-track assistant professor

Appointment:  Nine-month appointment with a starting date of January 2016/August 2016

Responsibilities:  

Assistant Professor:  
Teach relevant undergraduate and graduate courses for students preparing for a career in the construction industry or related careers; conduct independent and collaborative research; aggressively seek external funding; direct student research; participate in graduate student advisement; and perform relevant University and professional service.

Expectations:  The successful assistant professor candidate is expected to develop a nationally recognized funded research program and integrate their research into current and new academic courses. Candidates should identify courses in the construction management curricula at Colorado State University that they are capable of teaching. For information on courses, go to the department website at http://www.cm.colostate.edu/.

All faculty are expected to work for the common good of the Department, the College, and the University. Teamwork is critical for success on the job, and faculty must be able to maintain relationships with students, co-workers, and other constituents that are based on professionalism and mutual respect.

Required Qualifications:  

Assistant Professor:  
- An earned Doctorate, JD or ABD* in a construction-related field
- Evidence of or verified potential for establishing a publication record, external grant procurement, and University-level teaching

*At time of hire, arrangements will be made to complete the Ph.D. within a specified time period.

Preferred Qualifications:  A minimum of five years of construction experience is preferred. A research agenda in one or more of the following high priority research areas is preferred:
Teaching abilities in one or more of the following content areas is preferred:

- Building Information Modeling
- OSHA-Certified Construction Safety
- Mechanical, Electrical, and Plumbing Systems
- Structural Components and Systems
- Surveying
- Estimating
- Materials Testing

A personal and professional commitment to diversity as demonstrated by involvement in teaching, research, creative activity, service to the profession and/or multicultural activities is preferred.

Salary and Rank: Salary is competitive and commensurate with qualifications.

Application Process: Submit: 1) a letter of application that includes a statement of your interest in this position as well as your immediate and long-term teaching and research goals; 2) curriculum vitae; 3) 1 – 2 representative publications; and 4) three letters of reference specific to this position to: Dr. Scott Glick, Search Chair, Scott.Glick@ColoState.edu 970-491-1802.

Applications must be electronically submitted in PDF format by August 1, 2015 for full consideration. Letters of reference are to be electronically submitted directly by each author. The search will remain open until suitable candidates are identified. Incomplete applications will not be considered.
